Outdoor Education

Rangitoto College's Outdoor Education Programme is designed to help students have an amazing New Zealand experience. The programme is a combination of classwork and trips!

What is included in Outdoor Education?

This course will establish skills and leadership through the outdoors such as camps and snorkelling. Students will develop knowledge based around group processes, leadership and risk management. Our program is designed to inspire a love for the outdoors while fostering personal growth and leadership skills.

At Rangitoto College, we believe in the power of experiential learning, and our Outdoor Education Program provides students with unique opportunities to explore the natural wonders of our country. From the rugged trails of local Islands to the pristine waters of the Hauraki Gulf, our students engage in hands-on experiences that go beyond the classroom.

Led by a team of experienced and passionate outdoor educators, students develop resilience, teamwork, and problem-solving skills in an environment that encourages curiosity and self-discovery. Whether it's navigating the challenging terrain, team building, or participating in water-based activities, our program instills a sense of confidence and a deep appreciation for the environment.

Programme Details
